

REHABILITATION PRACTICE AND SCIENCE

Call for Papers: Special Issue

Join the RPS Community and Shape the Future of Research!

We are pleased to announce a call for papers for our upcoming Special Issue on **Musculoskeletal Pain of shoulder Joint**. This issue aims to provide a comprehensive overview of current research, trends, and challenges in the field of musculoskeletal pain on pathophysiology, diagnosis and treatment.

Topics of Interest Include:

- Epidemiology and risk factors of shoulder pain
- Advances in shoulder pain assessment and measurement tools
- Innovative therapeutic approaches and interventions
- Mechanisms underlying shoulder pain
- The role of physical medicine and rehabilitation
- Integrative and complementary treatments in shoulder pain management
- Psychosocial aspects and quality of life in patients with shoulder pain

We welcome submissions that offer critical insights, synthesize existing knowledge, and propose future directions for research and clinical practice. We look forward to receiving your contributions to this important issue. Together, let's advance our understanding and improve outcomes for individuals suffering from shoulder pain.

Submission Deadline: Oct. 31, 2024

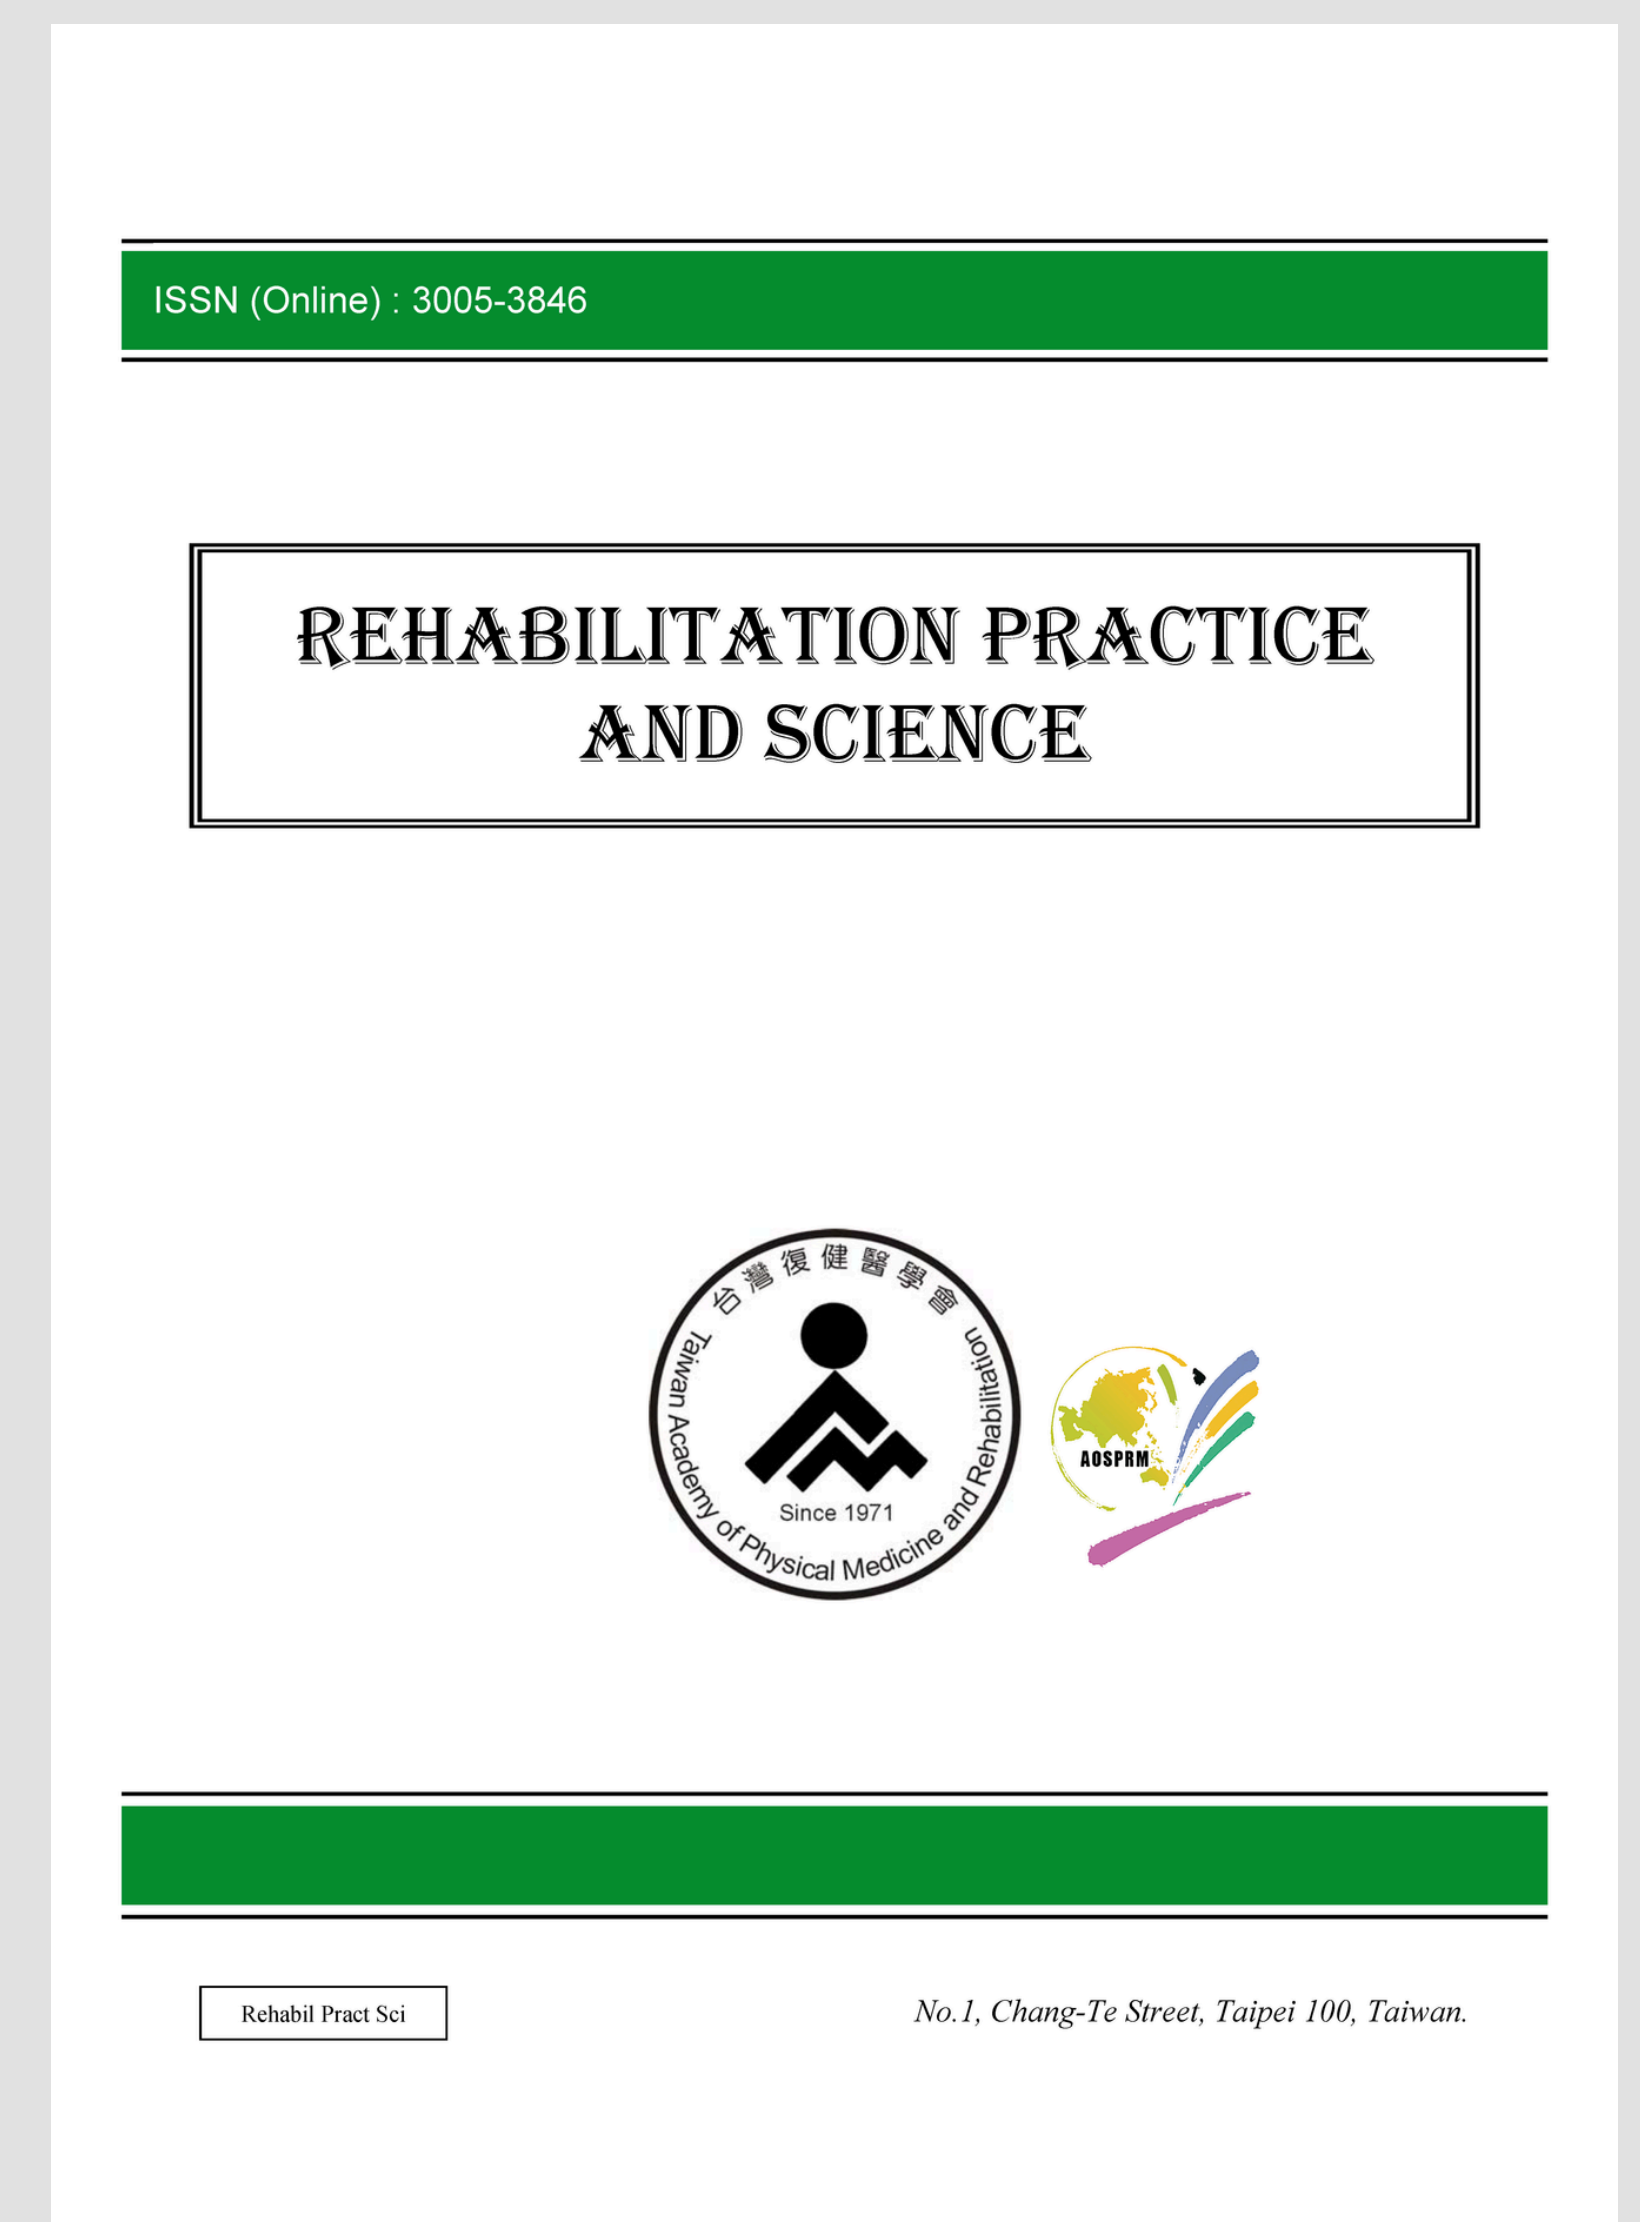

Submission Guidelines:
